

# M. Abid Hussain

## Full Stack Developer

I'm a full stack developer focused on the MERN stack. I build reliable, scalable applications with clear attention to structure and user experience. I'm comfortable working across the entire workflow, from designing APIs and managing databases to creating responsive interfaces. I enjoy solving real problems with practical solutions and writing code that's easy to maintain. My work reflects a steady approach, clear communication, and a drive to keep improving my craft.

## EXPERIENCE

### Frontend Development

HTML, CSS, JS, JQuery, React JS, Next JS

08/2022 - Present

### App Development

React Native

08/2022 - Present

### Backend Developer

Node JS, Express JS, MySQL, MongoDB

08/2022 - Present

## PROJECTS

### Hostel Management System

- Built a full MERN stack **Hostel Management System** with separate user and admin workflows.
- **Users** can apply for **room bookings** and submit **pass** requests through a simple interface.
- **Admin** can track room availability, filled capacity, booking stats and all pass requests in real time.
- **Admin** can approve passes, assign room numbers and manage user records.
- Integrated content management features so the admin can **update website** information as needed.

### Banking System - A Payment Gateway

- A **website** for transferring money between users and various payment gateways, viewing transaction history, and managing accounts
- **Android App** (WebView) for mobile access
- **Telegram Bot** for user registration, OTP verification, and balance checks
- **HadaF-Ai** chatbot for automated support.
- **Merchant gateway** for e-commerce payments
- **Links** : <https://github.com/Banking-System-A-Payment-Gateway>

### 6Tube – React Native Android App

- A fast and lightweight video downloader for Android, built with React Native.
- Allows users to download video and audio from multiple platforms without watermarks.
- Powered by multiple high-speed servers for each platform using a zero-cost API.
- Features a simple UI with video preview, download buttons, and smooth performance.

## SKILLS

HTML

JavaScript

JQuery

React JS

Tailwind CSS

MongoDB

CSS

BootStrap

MySQL

MERN Stack

React Native

Next JS

## ACHIEVEMENTS

Website Development

Corvit System Sahiwal

## EDUCATION

BS Computer Science (2021 - 2025)

Government College & University Sahiwal

FSC Pre-Medical (2017-2019)

Punjab College Chishtian

## ACHIEVEMENTS

Website Development (11/2023 - 02/2024)

I have learnt HTML, CSS, JS, jQuery, PHP, MySQL

MERN Stack & Next JS (08/2025 - 10/2025)

I have certified from PNY Training Institute

## LANGUAGES

URDU

Full Professional Proficiency

English

Full Professional Proficiency

Punjabi

Full Professional Proficiency

## INTERESTS

React JS

Web Designing

React Native

MySQL

Node JS

Express JS

MongoDB

Good Team Working Skills

Multitasking

MERN STACK

Website Development
